CR 126407/27594 Room share enhancement to Guest List from Reservation > Query

Right mouse click onto reservation, Contact, Sharing Guest will open the reservation in the guests tab to insert a new sharing guest.
(RFC 11940) Version 10.2.139.0098

CR 123324/27601 Names List Enhancements for Allotments

Using nameslist for allotments the available room types are suggested. When 'Include roomtypes without inventory' is ticked the roomtype with available rooms will be shown when none are available then the first roomtype will be shown using alphabetical order. (RFC 13489) version 10.2.139.0098

CR 125880/27610 Contact Merging

It is now possible to select several contacts (CTRL+Click) and delete => select a contact to transfer to, all contacts are merged with the selected contact. (RFC 3031) Version 10.2.139.0098

CR 126413/27616 Forecast & Occupancy Reports to Calculate Rate Revenue Breakdowns of Allotments Correctly

There were cases where the revenue was not correctly calculated for allotments (rework). (RFC 11947) Version 10.2.139.0098

CR 123318/28198 Changes made to reservations via the Hotel Status freezes the screen

When changing a reservation via the Hotel Status screen it often froze the screen. This has been fixed.

(RFC 13482) Version 10.2.139.0098

CR 123320/28200 Creation date of a split reservation was wrong

Now split reservations have the same creation date as the initial multi room reservation.

(RFC 13484) Version 10.2.139.0098

CR 125185/28201 Billing Instructions

The travel agent address or the 'Linked Company' in the travel agent will be copied automatically into the address of folio 3.

(RFC 3285) Version 10.2.139.0098

CR 125763/28509 Using correct button on original deposit transfer caused a deposit ledger difference

It is not possible to use the 'Correct' button on the deposit posting of a reopened deposit folio anymore.

(RFC 10630) Version 10.2.139.0098

CR 125801/28512 Error 12 Variable 'RS_PAYNUM0' is not found causing deposit difference

Several deposit payments in the same reservation may have caused above error.
(RFC 9856) Version 10.2.139.0098

CR 127448/28519 Incorrect OOO status in rooms.dbf when the OOO record date was changed

If an OOO or OOS room is returned against planning already on today's date, the end date can be changed to today's date. Previously this resulted in a wrong status in housekeeping.
Version 10.2.139.0098

CR 126531/28508 Guestledger differences caused by night audit being restarted

If a night audit was interrupted it may have cause a guest ledger difference due to reposting of the last posted item.
(RFC 12351) Version 10.2.139.0098

CR 126381/28761 Copying of already charged Banqueting charges

If charges from a checked in Banqueting reservation were copied to a future Banqueting reservation, the charges failed to be executed in the future reservation on check in.
(RFC 11896) Version 10.2.139.0098

CR 123533/28868 Folio Export was unable to create special characters

If a folio was exported to another language the special characters failed to be created in the email.
(RFC 13319) Version 10.2.139.0098

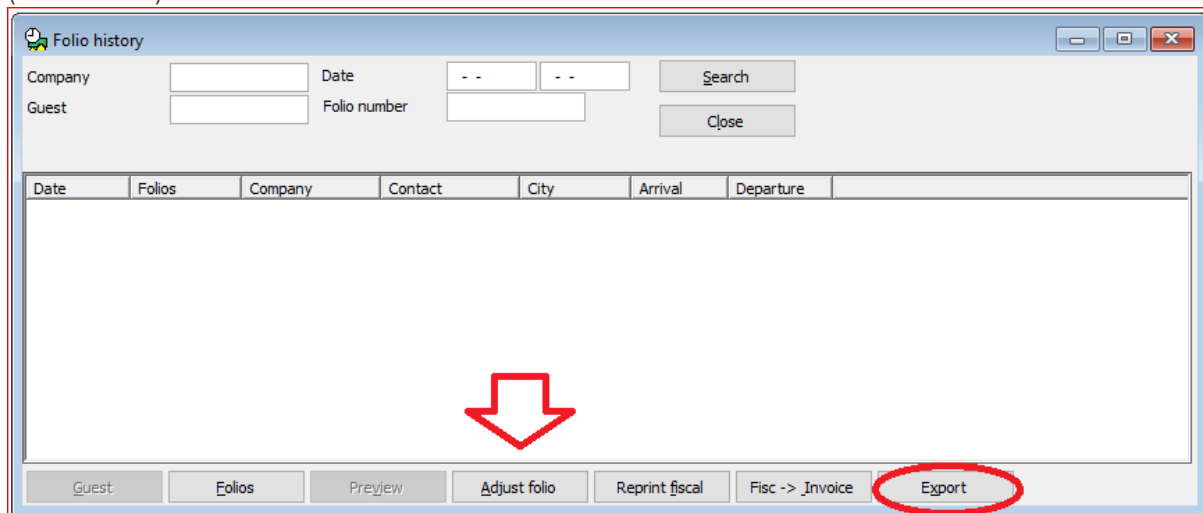

CR 123589/28867 Amyuni PDF Converter for 64bit versions

Via Tools, Additional Software, Amyuni 5.0 the Amyuni PDF Driver for 64bit versions (i.e. Office) can be installed. Please note that you probably need administrator rights!
(RFC 13369) Version 10.2.139.0098

CR 124207/28941 Polish version in Folio History button 'Adjust Folio' changes to 'Export' when PDF folios activated

In Financial, Folio History the Export button lay over the 'Adjust Folio' button. This has been corrected.

(RFC 13555) Version 10.2.139.0098

CR 126408/27606 Userlog screen enhanced various changes.

Userlog screen enhanced, split of a charges show and reservation numbers, it's (possible) to transfer to another reservation. (Setup, View userlog).

(RFC 11941) Version 10.2.139.0098

CR 123519/28488 Manager Statistics report shows stars or empty information on room and bed fields

Now the Manager Statistics show 0.00 instead of stars if occupied rooms or beds were zero and Issue fixed where system recalculates from last date and not from last entry preventing stars in report.

(RFC 13304) Version 10.2.139.0098

CR 123314/27587 Multiple Credit Card Numbers in Reservation Screen

Now multiple credit card numbers can be entered already in the reservation screen by clicking onto the button with the three dots to the right of the expiry date.

(RFC 13478) Version 10.2.139.0098

The screenshot shows the Amadeus Reservation screen. At the top, there are fields for Guest (Mr Peter Szymanek), Company (Blaster & Clarke Wine Tours), and Travel agent. Below these are fields for Group, Allotment, Confirm to, Booked by, and Company. A table shows reservation details with columns: Arrival, Nts., Departure, From, To, Rms., Type, Room, Adlt., Chld., Rate code, Rate, Stat., and Conf. stat. A 'Credit cards listed' dialog box is open, showing a table with columns: Credit Card, Limit, Date, Auth., Window, Description, and Contact. A red arrow points to a button with three dots next to the 'Multiple auth.' field in the 'Credit card nr.' section.

CR 127858/29178

Changing/deleting/adding user rights not logged in User log

Now Changing/deleting/adding user rights is logged in the user log. Setup, View sensitive log.
Version 10.2.139.0098

CR 126764/31103 Error 11 when creating a new user if email field stayed empty

When a new user was created and no entry was made in the email field of that user it caused an error. This has been fixed.
Version 10.2.139.0098

CR 127449/31606 Changing an OOO room to OOS or vice versa was not reflected in Manager Statistics

When a current OOO room was changed to OOS or vice versa this was not reflected in Manager Statistics. This has been corrected.
Version 10.2.139.0098

28812 Autoupdate version 2 from PM PRO version 10.2.139

From Amadeus PM PRO version 10.2.139 Autoupdate version 2 is being used. This no longer requires UAC changes on the server or to be in the start-up of the server. Will be executed on the workstation where the night audit is started and stopped after updates are completed.

CR0126892/33926 Authorised rooms increased when namelist was used for allotment multi room reservations

When multiroom allotment reservation were made and then split using nameslist sometimes borrowing roomtypes was asked and in turn the authorised rooms increased.
Version 10.2.139.0182

CR0128141/34478 Link field in Room setup is not long enough

Link field in the Room setup was only 100 long increased to 250 required for hostels.
Version 10.2.139.0189

CR0128302/34465 Allotment code change prior to first save of allotment did not update all linked databases

Allotment code change prior to first save of allotment did not update the room database with new code.
Version 10.2.139.0189 (Standalone version only)

CR0128497/28950 Roomplan screen enhanced to enable searching for multiple room numbers

It's now possible to search for multiple room numbers at the same time
Version 10.2.139.0202

CR0124437/33684 Downsell roomtype view added to main reservation screen

Downsell roomtype added to the reservation screen for quicker view
Version 10.2.139.0202

The following items apply to IHG hotels with a Holidex Plus® 2-way interface. The interface functionality will not be affected.

CR 124120/27577 Centralised E-Mail Confirmations

On changing / creating / cancelling a reservation a screen pops up to confirm via Holidex by email or SMS. This is limited to 5 confirmations.

(RFC-13502) Added in version 10.2.139.0098 (additional document available to download)

CR 123316/27590 IHG reward levels on reports

All reports are now showing the IHG Reward levels correctly.

(RFC 13479) Version 10.2.139.0098

CR 123321/27613 Extra Allotment Allocation Status

There is a new allotment status ALC (Allocation), not deducted from inventory in Holidex but possible to make reservations like with a DEF allotment. This status cannot be changed once selected.

(RFC 13485) Version 10.2.139.0098 Also requires v3.06 of Holidex

In ALT F2:

Allotments							
Prospect		Tentative		Definite		Allocation	
Alt.		Alt.		Alt.	Pick.	Alt.	Pick.
0	10	0	10	8	5	3	
0	0	0	10	8	5	4	

CR 123323/27619 Rename 'Downsell room type' to 'Original room type booked'

In the Miscellaneous tab in the reservation screen the field 'Downsell room type' was renamed to 'Original room type booked'.

(RFC 13487) Version 10.2.139.0098

The screenshot shows the Amadeus Reservation screen with the Miscellaneous tab selected. The 'Original room type booked' field is highlighted with a red arrow. The field contains the value 'TTWN'. Other fields visible include 'Cancellation nr.', 'Cancellation date', 'Rate override reason', 'Created', 'Updated/By', and 'CRS booking locator'.

CR 127855/28369 Entering group name for split reservations not mandatory

It is now possible to split a multi room reservation downloaded from Holidex directly without having to enter a group name in the split screen.

Version 10.2.139.0098

CR 123319/28199 Multi Room Reservation Copy Note

It is now possible to change the notes of all reservations during the split of a multi room reservation.

(RFC 13483) Version 10.2.139.0098

The screenshot shows the 'Reservation split' dialog box. On the left, there are input fields for 'Rooms' (1), 'Group' (empty), 'Create pay-master' (checked), 'Language' (English), 'Title' (Mr), 'Country' (empty), 'Adults per room' (1), 'Children per room' (0, 0, 0), and 'New Rate' (84,00). On the right, there is a 'Note' field with a checkbox 'Copy complete note' and a text area containing 'New note during split / names list'. The 'Note' field is circled in red. At the bottom are 'OK' and 'Cancel' buttons.

CR 123278/28500 Reservation status of a share guest is not updated when the checked in main guest is removed from reservation

If a sharing guest is removed from a checked in reservation, the reservation status changes accordingly. I.e.: One sharing guest is checked in, the other sharing guest is not yet checked in (6PM) and the checked in sharing guest is removed, the reservation changes from status IN to 6PM.

(RFC 13210) Version 10.2.139.0098

CR 123704/32205 Country is not populated with reservations from Holidex into PM PRO

Reservations created on Holidex may have failed to populate the country and nation in the address when in Holidex it was not entered. Now it is always populated with GBR.

Version 10.2.139.0098

CR 127857/30859 Related ID's are not populating in notes correctly anymore

Now the related ID's are copied correctly to note filed when splitting a multi room reservation.

Version 10.2.139.0098

CR 123315/27598 IHG Rewards Member level Validation check during night audit

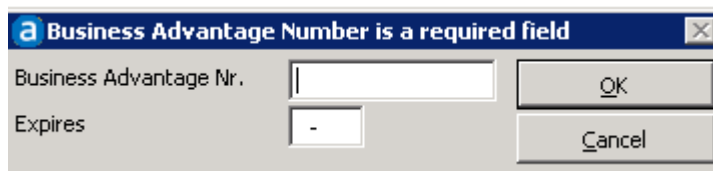

The Night Audit process shall validate the level of all members who are scheduled to arrive on the new business date.

(RFC 13481) Version 10.2.139.0098

CR 123864/28492 Rename the pop up for ATOS

Renamed the ATOS pop up when paying from Atos to Business advantage number.

(RFC 13613) Version 10.2.139.0098

Holidex V3.06

CR 123688/33024 IHG reward bookings via IHG.com when changed increased adults

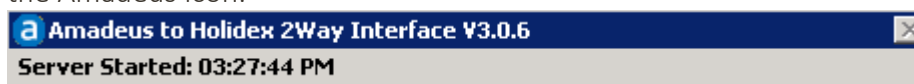

Reservations originating for IHG.com for IHG reward members when changed increased Adults.

CR 128150/33594 Holidex can now be stopped using Checkifc

This is to allow the interface to be stopped over the network for future updates.

CR 128151/33595 Rebranding of Holidex interface

Holidex interface is now called Amadeus to Holidex 2Way interface and Icon has changed to the Amadeus icon.

CR129448/36011 Email confirmations always sent when using close button

Confirmation sms/email with IHG does not save changes if you use close button renamed button to 'No Confirmation' then nothing is sent.
