VSTS 111366 GRS Changed code: new error on Hotel Sold Out

CRS message was changed from containing [ZERO AVAILABLE] to [NO AVAILABILITY] to indicate a fully booked condition in answer to a 'Real Time Availability' request. Due to this CRS change, the 'use local availability' option in the PMS was no longer triggered. Solved from PMpro version 10.2.144.1091

VSTS 112557 GDPR purge during night audit takes long time

From PMpro version 10.2.144.1107 the GDPR purge routine is reconfigured to save time.

VSTS 112826 Error 9 Data type mismatch folwrite when checking out a house account folio with no payments.

Fixed from PMpro version 10.2.144.1107

CR0131977 / VSTS 114568 Closed restriction is not showing in red color in availability screen unless it's the arrival date.

Solved from PMpro version 10.2.144.1131.

VSTS 117470 A/R Reports: bring financial reports in line with ARPost structure.

Solved from PMpro version 10.2.144.1131
Important note: Batches with A/R reports or Journal Payments report need to be manually adjusted by removing old reports and then adding new reports.

VSTS 121044 Error during night audit causing A/R differences

'Table HistArPost does not exist' error leaves records partially transferred. Solved from PMpro version 10.2.144.1143

CR0133034 / VSTS121122 API library is not found, occurred in procedure Vfp2C32 error at the end of the night audit.

Solved from PMpro version 10.2.144.1143

CR0133023 / VSTS 122289 Unable to check in reservation when departure date and OOO / OOS start date overlap.

Solved from PMpro version 10.2.144.1145

VSTS 122282 Add new method to XMLPOS interface for processing charge messages containing VAT amounts calculated by the external system.

New method 'ChargeRoomNet' is available from XMLPOS version 1.0.1.30 in combination with PMpro version 10.2.144.1145
