— VSTS 161745: Add option to revert back to the Windows temporary folder .....	3
— VSTS 153755: status for night audit (days free) is not being checked during night audit.....	3
— VSTS 161992: Error 107: Operator/operand type mismatch on reservation dialog .....	3

## VSTS 161745: Add option to revert back to the Windows temporary folder

From version 10.2.144.1201:

Added option to revert back to the local temporary folder.

If needed, please add the following to the hotel.ini:

```
[PMproParameters]
```

```
LocalTmpDir=Yes
```

## VSTS 153755: status for night audit (days free) is not being checked during night audit

From version 10.2.144.1201:

A fix on the roomstatus: better handling for the 'Status after days free' setting:

- do not set occupied rooms to dirty that were cleaned today
- apply the audit time rules for Legionella check (calculate with system date - 1)

## VSTS 161992: Error 107: Operator/operand type mismatch on reservation dialog

Solved in version 10.2.144.1201
